Cod: 4466

Electric Convection Oven with Humidification, 4 Trays, 5.2 kW power – 8.3 cm rail spacing

Description

Excellent technical specifications and a minimalist design for an oven that takes up little space yet delivers impressive performance. You'll be able to bake cakes and brioches to perfection thanks to the one-touch humidification function and increased heating power. Operating the oven, which is already extremely intuitive, is made even easier by the electronic control panel, which can be customised with no fewer than 99 programmes and allows you to bake in four stages.

Dimensions

External dimensions	784x752x634 mm

Technical specifications

Baking tray capacity	4 600 × 400 mm
Cooking method	ventilated
Electrical Power	5.2 kW
Frequency	60 Hz
Humidification	indirect push-button control
Net weight	50.6 kg
Operating temperature	+50 +270 °C
Power supply	Electric
Voltage	400 V
