Cod: 112210021872722

4-ring electric hob with open compartment, three-phase, 16 kW, 80×90×85h cm

Description

Stainless steel frame. Heat-resistant thermoset plastic handles with practical screen-printed markings.

Heating is provided by square cast-iron electric hotplates. The heating elements are fixed to the base of the hotplate, embedded in a layer of insulating material. Each plate is fitted with a control knob that allows the heat output to be adjusted from maximum to minimum across seven settings. Safety is ensured by a temperature limiter located inside the plate.

The worktop is moulded from 0.2 cm thick AISI 304 stainless steeland features a recessed design to ensure the electric plates fit perfectly, facilitate easy cleaning and prevent damage to the electrical components from liquids. Front panel in AISI 304 stainless steel.

The worktop finish is achieved using laser cutting for a ‘butt-joint’ fit, secured with edging.

Height-adjustablestainless steel legs .

. 100% Made in Italy.

Dimensions

External dimensions	800x900x850 mm
Packaging dimensions	900x1000x1000 mm

Technical specifications

Electrical Power	16 kW
Net weight	94 kg
Power supply	Electric
Voltage	400 V
Weight including packaging	104 kg
