Cod: 112210030162848

6-ring electric hob with open compartment, three-phase, 24 kW, 120×90×85h cm

Description

Stainless steel construction. Handles made from heat-resistant material with functional screen-printed markings on the rim.

Heating is provided by square cast-iron electric hotplates. The heating element is fixed to the base of the hotplate, embedded in a layer of insulating material. Each plate is fitted with a switch that allows the power to be adjusted from maximum to minimum across seven settings. Safety is ensured by a temperature limiter located inside the plate.

The worktop is made of 0.2 cm thick pressed AISI 304 stainless steel and features a reverse embossed edge to ensure the plates fit perfectly, facilitate cleaning and protect the electrical components from spilled liquids. Front cladding in AISI 304 stainless steel.

The worktop finish features laser-cut edges to ensure the worktops fit ‘end-to-end’ and are securely fastened together.

Height-adjustable stainless steel feet.

. 100% Made in Italy.

Dimensions

External dimensions	1200x900x850 mm
Packaging dimensions	1310x1010x1080 mm

Technical specifications

Electrical Power	24 kW
Net weight	120 kg
Power supply	Electric
Voltage	400 V
Weight including packaging	131 kg
