Cod: 111900020212935

Electric countertop fry top with a ribbed, low-profile griddle, 7 kW, 40×90×25h cm

Description

Stainless steel construction. Handles made from heat-resistant material with functional screen-printed markings on the rim. Heating is provided by radiant heating elements positioned beneath the cooking plate. Thermostat for adjusting the plate temperature between 120°C and 320°C. Manually resettable safety thermostat. Single, low-profile, large cooking plate made from special stainless steel, which ensures excellent heat transfer and is mirror-polished to prevent food from sticking and to facilitate quick cleaning in accordance with current regulations. Ribbed cooking plate. Worktop with a sloping surface that drains towards the grease drain hole. Large hole in the cooking surface for draining grease into a 2.9-litre container located beneath the cooking surface and supplied as standard. Stainless steel AISI 304 worktop with rounded edges for easy cleaning. Front, side and rear cladding in stainless steel. Laser-cut worktop finish to ensure ‘end-to-end’ alignment of worktops and secure fastening of the worktops to one another.

. 100% Made in Italy.

Dimensions

External dimensions	400x900x250 mm

Technical specifications
