Cod: 108310020132626

Professional 2-burner gas worktop hob, 10.5 kW, 40×70×54.7h cm

Description

Why buy it?

If you're looking for a compact yet high-performance **professional gas cooker**, this **worktop model** is the ideal solution. Designed to ensure **maximum efficiency** and **durability**, it's perfect for those with limited space who don't want to compromise on cooking quality. Thanks to its **stainless steel** construction,**high-powered** burners and **practical features** designed for intensive daily use, this model perfectly meets the needs of chefs and professional kitchen staff.

Key features

- **Gas supply**
  The hob is powered by **natural gas** but comes with a handy **conversion kit for use with LPG**, thus offering **maximum** installation **flexibility** in any professional environment.
- **Stainless steel construction**
  Built entirely from **high-quality stainless steel**, this cooker guarantees **resistance to corrosion**, ease of cleaning and **exceptional durability**, even under intensive use.
- **Pilot flame and piezoelectric ignition**
  The **pilot flame** system ensures immediate and continuous ignition of the burners, whilst**the piezoelectric ignition** eliminates the need for lighters or matches, making everyday use even **safer and** more **convenient**.
- **Removable cast-iron grills**
  The **sturdy cast-iron grills** provide stable support even for large pots and pans. Furthermore, they are **removable**, which makes cleaning and maintenance much easier.
- **High cooking power**
  The cooker is fitted with **two professional burners**:
  1 x 3.5 kW burner
  1 x 7 kW burner
  This configuration allows you to handle **different types of cooking simultaneously**, from preparing delicate sauces to cooking dishes that require high temperatures.
- **½-inch gas connection hose**
  A **½-inch gas connection hose** is included, allowing for a simple and safe connection to the gas mains.
- **Methane/LPG conversion kit included**
  The product comes complete with **a kit for converting from natural gas to LPG**, ensuring **maximum versatility** depending on the availability of fuel in your kitchen.
