Cod: 108920352662

Stainless steel baking tray trolley, holds 20 trays, 60×40 cm, 47×62×180h cm

Description

Why buy it?

In any professional kitchen, time and organisation make all the difference. A stainless steel **baking tray trolley** like this one is an essential aid for improving efficiency during preparation, cooking and serving. As well as offering a sturdy and durable construction, it is designed to make handling baking trays as easy as possible. Thanks to its vertical design, it helps optimise kitchen space whilst facilitating organised access to the various dishes.

Key features

- **Entirely made from AISI stainless steel**
  The trolley is made from **stainless steel**, a material synonymous with hygiene, robustness and corrosion resistance. This makes it perfect for the food industry, where cleanliness and durability are essential requirements. It does not warp under heavy use and retains its aesthetic and functional qualities even after years of service.
- **Fitted with swivel castors**
  The **professional-grade castors** allow the trolley to be moved easily, even when fully loaded. The castors are designed to ensure smooth movement on all types of flooring, and some are fitted with **safety brakes** to keep the trolley stable whilst loading or unloading trays.
- **Multiple shelves for high capacity**
  With its **180 cm tall vertical structure**, the trolley is designed to accommodate **a large number of baking trays**, making the most of vertical space. Ideal for bakeries, restaurants and patisseries, it allows you to manage large quantities of baked goods in an organised and accessible manner.
- **Compact yet spacious**
  Its dimensions of **47x62x180h cm** make it suitable for any type of professional kitchen: compact enough to pass easily through doors and corridors, yet with a capacity that meets the needs of even the busiest establishments.
- **Easy to clean and sanitise**
  The smooth design and stainless steel construction make daily cleaning a breeze. There are no crevices where dirt or food residues can accumulate, a key advantage for complying with HACCP regulations and maintaining high hygiene standards.

Technical Specifications

- **External dimensions:** 47x62x180h cm
- **Number of trays:** 20 (60x40 cm)

Dimensions

External dimensions	470x620x1800 mm
