Cod: 119643196007

Single induction hob, 37 × 29 × 3.5 cm (h), 2 kW

Description

Why buy it?

If you're looking for a cooking solution that combines **efficiency, convenience and sustainability**, the **single induction hob** is the ideal choice. Thanks to its advanced technology, it allows you to cook quickly, reducing energy consumption compared to traditional hobs. It's perfect for professional kitchens, restaurants, catering businesses or anyone looking for a practical solution for home use too. What's more, its compact design and electric operation make it a perfect choice for outdoor settings as well, such as events or food trucks.

Key features

- **Induction cooking: maximum efficiency and safety**
  Thanks to **induction technology**, heat is generated directly in the base of the pan, reducing energy loss and ensuring faster cooking compared to traditional electric or gas hobs. This means **energy savings** and temperatures that are always under control, preventing overheating and waste.
- **Electric power supply: no need for gas**
  Operating exclusively on **mains power (230V – 2 kW)**, this induction hob is **ready for use wherever** a power socket is available. Ideal for both domestic and professional settings, it eliminates the risks associated with gas leaks and improves safety in the kitchen.
- **Low energy consumption and reduced environmental impact**
  The **induction hob is more efficient** than traditional hobs: it uses only the energy needed to heat the pan, with no energy loss. This leads to significant **savings on your electricity bill**, as well as reducing environmental impact thanks to lower resource consumption.
- **Versatile use: perfect for any setting**
  Thanks to **its compact dimensions (37x29x3.5h cm)** and light weight of **2 kg**, this hob is easy to transport and can be used in a wide range of settings. It is perfect for restaurants and professional kitchens, as well as for catering, mobile kiosks, food trucks and even outdoor cooking.
- **Precise temperature control and advanced safety**
  Induction hobs offer **precise heat control**, ideal for cooking all kinds of dishes at just the right temperature. Furthermore, the surface remains cool to the touch outside the area in contact with the pan, reducing the risk of burns and improving safety during use.
- **Easy to clean and built to last**
  The smooth **glass-ceramic** surface allows **food residues and stains** to **be easily removed** with a simple damp cloth. With no grills or burners to dismantle, cleaning is quick and effortless, ensuring hygiene and long-lasting durability.
- **Intuitive touch control panel**
  The **touchscreen display** allows you to adjust the temperature precisely from **+60** to **+280 °C**, ensuring a simple and intuitive user experience. No knobs to turn, just a modern, minimalist interface.
- **Built-in electronic timer for perfect cooking**
  The **timer** function allows you to programme cooking times without the risk of burning your food. Ideal for dishes that require precise time control.

Technical Specifications

- **Power supply:** Electric
- **Frequency:** 50 Hz
- **Power:** 2 kW
- **Voltage:** 230 V
- **External dimensions:** 37x29x3.5h cm
- **Packaging dimensions:** 42x33x10h cm
- **Net weight:** 2 kg
- **Gross weight:** 2.4 kg
- **Operating temperature: +60** to +280 °C

Dimensions

External dimensions	370x290x35 mm
Packaging dimensions	420x330x100 mm

Technical specifications

Electrical Power	2 kW
Frequency	50 Hz
Net weight	2 kg
Operating temperature	+60 +280 °C
Power supply	Electric
Voltage	230 V
Weight including packaging	2.4 kg
