Cod: 110272063006

Steel refrigerated cabinet, 1 door, 700 litres, ventilated, +2 to +8 °C

Description

Why buy it?

This professional refrigerated cabinet is the ideal choice for anyone looking for **high performance and durable materials**. The **stainless steel** construction ensures sturdiness and ease of cleaning, whilst the **forced-air cooling system** guarantees even temperature distribution, ideal for keeping food in optimal condition.**A spacious door** offers excellent storage capacity, making it perfect for high-volume environments such as restaurants, canteens or catering kitchens.

Key features

- **High-quality stainless steel construction**
  Made entirely from **stainless steel**, this refrigerated cabinet guarantees **maximum hygiene**, corrosion resistance and durability, even in professional environments subject to intensive use.
- **Forced-air cooling system**
  Thanks to **forced ventilation**, the cold air is distributed evenly throughout the interior compartment. This prevents the formation of warmer or colder zones, safeguarding the quality and safety of the food.
- **Ceiling-mounted ventilated evaporator**
  The ceiling-mounted evaporator leaves space free at the sides and helps to improve the circulation of cold air. The result is more stable and efficient cooling, with lower energy consumption.
- **3 adjustable shelves for optimal space management**
  The **three internal shelves** offer great flexibility in food arrangement, allowing you to organise different types of products neatly, from Gastronorm trays to containers for loose food.
- **Soft-close doors for more comfortable and safe use**
  The **soft-close doors** prevent sudden slamming, reduce wear and tear on the seals and improve user ergonomics, which is particularly useful in the hectic pace of a professional kitchen.
- **4 adjustable feet for perfect stability**
  The **height-adjustable feet** allow the fridge cabinet to be easily levelled on any type of floor, ensuring stability and making it easier to clean underneath the unit.

Technical specifications

- **External dimensions:** 74x83x201h cm
- **Net weight:** 112 kg
- **Power supply:** Electric, 220 V / 50 Hz
- **Power consumption:** 0.36 kW
- **Power consumption:** 1.78 kW/24h
- **Refrigerant:** R290
- **Climate class:** 4
- **Operating temperature:** from +2 °C to +8 °C
- **Insulation:** 6 cm
- **Packaged dimensions:** 77.1 x 86.1 x 205.5h cm

Dimensions

External dimensions	740x830x2010 mm
Insulation thickness	60 mm
Internal dimensions	624x702x1414 mm
Packaging dimensions	771x861x2055 mm

Technical specifications

Climate class	4
Electrical Power	0.36 kW
Electricity consumption	1.78 Kw/24h
Energy efficiency class	C
Frequency	50 Hz
Net weight	112 kg
Operating temperature	+2 +8 °C
Power supply	Electric
Refrigerant gas	R290
Voltage	220 V
Weight including packaging	140 kg

Standard equipment

Included	3 shelves, 530 × 650 mm
