Cod: 108150064873317

Ventilated display freezer, -17 to -22°C, white, capacity 165 litres, 42×60×188h cm

Description

Why buy it?

This **professional freezer display cabinet** is the ideal solution for anyone who needs to store and showcase frozen products efficiently and neatly. Thanks to its compact vertical design and frameless glass door, it offers excellent visibility of the contents, making it perfect for bars, mini-markets, ice-cream parlours and other businesses seeking to combine functionality with aesthetics. The reliability of the forced-air cooling system ensures uniform and constant temperatures, improving food preservation and reducing ice build-up.

Key features

- **Frameless glass door**
  The fully glazed, frameless door offers a modern and elegant look and allows a **clear view of the products** inside. This is a major advantage for businesses open to the public, as it makes it easier for customers to choose and enhances the display of frozen goods, improving the shopping experience and boosting sales.
- **Ventilated refrigeration for a uniform temperature**
  The **forced-air refrigeration** system ensures even distribution of cold air across all levels of the display cabinet. This means that every product is kept at the same temperature, preventing temperature fluctuations and guaranteeing **optimal storage between -22 °C and -17 °C**, even with frequent door openings.
- **Removable shelves and flexible configuration**
  The **removable shelves** allow you to organise the interior space according to your operational needs. You can easily adapt the interior of the display cabinet to accommodate packages of different sizes, optimising capacity whilst maintaining order and practicality during daily operations.
- **Precise and intuitive electronic thermostat**
  The **electronic thermostat** allows for precise temperature control, ensuring maximum control over the storage of frozen products. The simple and intuitive interface makes operation straightforward, even for those using the display cabinet in high-intensity work environments.
- **Automatic defrosting with a hot pipe**
  The **automatic defrost** system **with hot pipe** minimises ice build-up on the internal walls, improving the freezer's efficiency and reducing the need for manual intervention. This results in **lower maintenance**, greater operational continuity and better performance over time.
- **Ideal capacity and dimensions for compact spaces**
  With a **gross capacity of 165 litres** and compact dimensions (42x60x188h cm), this freezer display cabinet is perfect for environments with limited space, without compromising on storage capacity. The vertical design allows you to make the most of the height whilst maintaining a small floor footprint.

Technical specifications

- **Operating temperature:** -22 °C to -17 °C
- **Gross capacity:** 165 litres
- **Net capacity:** 117 litres
- **External dimensions:** 42x60x188h cm
- **Internal dimensions:** 30 x 41.5 x 147h cm
- **Packaging dimensions:** 46x62.5x206h cm
- **Net weight:** 75.4 kg
- **Gross weight:** 80.5 kg
- **Power supply:** 220–240 V
- **Frequency:** 50 Hz
- **Power consumption:** 350 W
- **Shelf dimensions:** 29x32.5 cm
- **Energy consumption:** 5.53 kWh/24h
- **Refrigerant: R290**

Dimensions

External dimensions	420x600x1880 mm
Insulation thickness	60 mm
Internal dimensions	300x415x1470 mm
Packaging dimensions	460x625x2060 mm

Technical specifications

Capacity	165 Lt
Defrosting	automatic
Electrical Power	0.35 kW
Electricity consumption	5.5 Kw/24h
Frequency	50 Hz
Net weight	75.4 kg
Noise levels	58 db
Operating temperature	-22 -17 °C
Power supply	Electric
Refrigerant gas	R290
Voltage	230 V
Weight including packaging	80.5 kg

Standard equipment

Included	No. 5 290 x 325 mm
