Cod: 11645331153401

Countertop heated display cabinet for patisseries, with straight glass panels, temperature range +30 to +90 °C, 97 litres, 46×43×78.5h cm

Description

Why buy it?

Choosing this **countertop heated display cabinet for patisseries** means combining functionality, design and practicality in a single product. It is designed for those who wish **to display their products in a neat and inviting way**, keeping them at the right temperature and enhancing the visual appeal for the customer. A compact, reliable solution that's easy to integrate into your worktop, ideal for both professional businesses and those seeking a high-performance display case with attention to detail.

Key features

- **Sturdy steel, aluminium and glass construction**
  The external structure combines durable, high-quality materials, ensuring long-lasting sturdiness and a professional appearance. The **straight glass panels** offer a clear view of the product, showcasing the pastries and prepared items on display.
- **Internal surface in AISI 304 stainless steel**
  The interior, made from **AISI 304 stainless steel**, ensures maximum hygiene, ease of cleaning and resistance to intensive use – essential features for the catering and patisserie sectors.
- **Electronic thermostat for precise control**
  The **electronic thermostat** allows you to adjust the temperature simply and accurately, keeping products within the ideal range of **+30 °C to +90 °C** at all times, without compromising their quality or aroma.
- **Backlit display cabinet for greater visibility**
  The backlit top display cabinet is perfect for displaying a logo or customised graphics, enhancing visual communication and drawing customers' attention to the counter.
- **AISI 304 stainless steel flush-mounted shelves**
  The sturdy, generously sized **flush-mounted shelves** allow for a neat and professional display of products, optimising internal space and making daily restocking easier.
- **Compact and functional countertop heated display cabinet**
  Thanks to its compact size, this **countertop display case** is also ideal for small spaces, without compromising on generous internal capacity or an elegant presentation.
- **Practical and durable glass door**
  The glass door allows quick access to products and helps maintain a stable internal temperature, improving efficiency during service.
- **Internal LED lighting**
  The LED lighting enhances the displayed products, making them more appealing to customers whilst ensuring low energy consumption.
