Cod: 112050001652016

4-burner gas hob with open compartment and pilot light, 29.4 kW, 80×70×85h cm

Description

4-burner gas hob. Stainless steel body. Knobs made from thermosetting plastic.

Heating is provided by sealed burners with a stabilised, overlapping crown flame, offering different power ratings (6.2 kW and 8.5 kW).

Each burner is fitted with a safety gas valve that allows the output to be adjusted from maximum to minimum. Safety is ensured by a thermocouple maintained active by the pilot burner's flame.

Hob grids and burners made from RAAF matt-enamelled cast iron, resistant to alkalis, acids and fire.

Hob grids are positioned on a moulded base with rounded edges to ensure ease of cleaning and to protect against spilt liquids.

Moulded stainless steel drip pans with rounded edges are positioned beneath the burners and can be easily removed for cleaning.

Laser-cut worktop finish to ensure the worktops fit 'end-to-end' and are securely fastened together.

Height-adjustable stainless steel feet.

Testing carried out using natural gas or LPG, depending on the user's requirements.

. 100% Made in Italy.

Dimensions

External dimensions	800x700x850 mm
Packaging dimensions	910x810x1080 mm

Technical specifications

Burner Power	8.5 (x2) kW
Gas Power	29.4 kW
Material	stainless steel
Net weight	59 kg
Power supply	Gas
Weight including packaging	73 kg
