Cod: 1257900152

Professional electric convection oven with control knob, for 3 trays (60×40 cm)

Description

Why buy it?

Choosing this convection oven means opting for a versatile, reliable and easy-to-use solution, perfect for those who want to optimise both time and quality in the kitchen. Thanks to the combination of advanced ventilation and humidity control, it delivers professional results across a wide range of dishes, from bread-making to the most delicate baked goods, improving daily productivity without any hassle.

Key features

- **Convection baking with humidity control**
  This oven utilises an internal ventilation system that distributes heat evenly across all baking trays, ensuring consistent cooking even with full loads. The ability to control internal humidity allows you to achieve perfect results for both crisp products and soft, fluffy baked goods.
- **Intuitive dial controls**
  The knobs make using the oven extremely simple and straightforward, ideal for both experienced operators and those looking for practical, quick-to-use equipment. Manual adjustment allows for precise control of settings without the need for complex digital systems.
- **Air Plus technology for optimal air distribution**
  The **Air Plus** system ensures constant and uniform air circulation within the baking chamber, preventing cold or overheated areas. This results in high-quality baking and consistently reproducible results.
- **Steam Plus for controlled humidity**
  Thanks to the **Steam Plus** function, you can introduce just the right amount of moisture during baking. This technology is particularly useful for baked goods such as bread and brioche, helping to improve rise, aroma and texture.
- **Dry Plus for moisture removal**
  The **Dry Plus** system removes excess moisture from the baking chamber, promoting a crisp outer crust and a perfect finish, particularly on products such as pizza, focaccia and dry pastries.

Technical specifications

- **External dimensions:** 80x77.4x42.9h cm
- **Power supply:** Electric
- **Capacity:** 3 baking trays, 60x40 cm
- **Tray spacing:** 7.5 cm
- **Weight:** 40 kg
- **Voltage:** 220–240 V
- **Power consumption:** 3.3 kW
- **Frequency:** 50/60 Hz
- **Plug type:** Schuko

Please note: For this product, selection of the ‘Service and labour’ option is mandatory. Purchase of the oven without this service is not permitted.

Dimensions

Baking tray dimensions	600x400 mm
