Cod: 112200031752845

Three-phase 15.6 kW countertop electric hob with 6 square hotplates, 120×70×25h cm

Description

Electric hob with 6 square hotplates, designed for countertop installation, with a stainless steel body. Knobs made from heat-resistant material with functional screen-printed markings on the rim.

Heating is provided by square cast-iron electric hotplates. The heating element is fixed to the base of the hotplate, embedded in a layer of insulating material. Each hotplate is fitted with a control knob allowing the heat output to be adjusted from maximum to minimum across seven settings. Safety is ensured by a temperature limiter located inside the hotplate.

The worktop is made of pressed AISI 304 stainless steel and features an inverted counter-embossing to ensure the plates fit perfectly, facilitate cleaning and protect the electrical components from spilled liquids. Front cladding in AISI 304 stainless steel.

The worktop finish features laser-cut edges to ensure the worktops fit ‘end-to-end’ and are securely fastened together.

. 100% Made in Italy.

Dimensions

External dimensions	1200x700x250 mm

Technical specifications

Electrical Power	15.6 kW
Net weight	80 kg
Power supply	Electric
Voltage	400 V
