Cod: 12584012296001

Ventilated built-in fridge -18 to -22°C, 415 litres, 1 glass door

Description

Why buy it?

This refrigerated cabinet is designed for those who need to store frozen products safely, whilst maintaining high visibility to boost sales. Thanks to its glass door and internal LED lighting, it showcases the contents, ensuring they are always clearly visible, whilst the ventilated refrigeration system guarantees a uniform and constant temperature. An ideal solution for shops, supermarkets, cafés, restaurants and businesses seeking to combine **professional performance with modern aesthetics**.

Key features

- **Sturdy structure with a black, corrosion-resistant finish**
  The external and internal surfaces, made of pre-painted matt black sheet metal with anti-corrosion treatment, ensure long-lasting durability even in demanding professional environments. As well as being durable, it offers an elegant and modern design, perfect for well-maintained and visually appealing settings.
- **Frameless glass door for maximum visibility**
  The frameless full-glass door is designed to provide a clear and unobstructed view of the products inside, enhancing visual impact and encouraging impulse purchases. Ideal for displaying frozen foods in commercial settings.
- **Ventilated cooling for uniform temperature**
  The ventilated system distributes the cold air evenly throughout the cabinet, maintaining a constant temperature between **-18°C and -22°C**. This ensures optimal product preservation by preventing temperature fluctuations.
- **Digital thermostat for precise control**
  The digital control unit allows for simple and intuitive temperature management, ensuring ideal storage conditions at all times and making it easy to use even for untrained staff.
- **Automatic defrosting with compressor shut-off**
  The automatic defrost system reduces ice build-up and maintains the refrigerator's high performance over time, minimising the need for manual intervention and optimising energy consumption.
- **Internal lighting with vertical LEDs**
  The two vertical LEDs provide uniform lighting across all shelves, showcasing the displayed products and improving visibility even in dimly lit environments.
- **Automatic door closure**
  The self-closing door helps prevent cold air from escaping and minimises energy wastage, improving overall efficiency and reducing operating costs.
- **Shelves with integrated price holders**
  The shelves are designed to optimise the use of internal space and include price holders, ideal for retail environments where clearly communicating prices to customers is essential.
- **Easy to move with castors and adjustable feet**
  Fitted with castors and adjustable feet, the cabinet is easy to move and position, adapting easily to any shop layout requirement.

Technical specifications

- **External dimensions:** 68x74.5x196.7h cm
- **Internal dimensions:** 56 x 55.5 x 151.5h cm
- **Packaging dimensions:** 73.5 x 76.5 x 210h cm
- **Net capacity:** 288 litres
- **Gross capacity:** 415 litres
- **Climate class:** 5, 7
- **Insulation:** 6 cm
- **Noise level:** 65 dB
- **Net weight:** 112 kg
- **Gross weight:** 135 kg
- **Power supply:** 220–240 V – 50 Hz
- **Refrigerant:** R290
- **Electrical power:** 0.61 kW

- **Energy consumption:** 8.09 kWh/24h

Dimensions

External dimensions	680x745x1967 mm
Insulation thickness	60 mm
Internal dimensions	560x555x1515 mm
Packaging dimensions	735x765x2100 mm

Technical specifications

Capacity	415 Lt
Climate class	5, 7
Defrosting	automatic
Electrical Power	0.61 kW
Electricity consumption	8.09 Kw/24h
Frequency	50 Hz
Net weight	112 kg
Noise levels	65 db
Operating temperature	-18 -22 °C
Power supply	Electric
Refrigerant gas	R290
Voltage	230 V
Weight including packaging	135 kg

Standard equipment

Included	4 shelves with price holders, measuring 540 x 445 mm
