Cod: 13141

Neutral 2-column stainless steel plate trolley

Description

Why buy it

The neutral, 2-column stainless steel plate trolley helps to organise and move equipment during service. A useful choice for preparing the equipment required for your business and coordinating operations with the type of service required.

Key features

- **Streamlined workflow:** It groups together items intended for the same stage of service and facilitates their transfer between operational areas, minimising the need for manual handling.
- **Dedicated configuration:** The compartments and dimensions specified in the name help you choose the trolley based on the crockery or trays used in your business.
- **Stainless steel construction:** This material is standard in professional kitchen and service equipment and allows for straightforward maintenance using compatible products and procedures.
