Cod: 13144

Plate trolley with 6 adjustable dividers, black

Description

Why buy it

The plate trolley with 6 adjustable dividers helps you organise and move equipment around during service. A useful choice for preparing the equipment required for your business and coordinating operations with the type of service required.

Key features

- **Streamlined workflow:** It groups together items intended for the same stage of service and facilitates their transfer between operational areas, minimising the need for manual handling.
- **Dedicated configuration:** The compartments and dimensions specified in the name help you choose the trolley based on the crockery or serving trays used in your business.

Technical specifications

- **Product dimensions:** 71x110x80h cm
- **Net weight per unit:** 35.69 kg
- **Construction and functional features:** The plate trolleys, moulded from polyethylene, help prevent plates from chipping during transport, thanks in part to the rounded corners both inside and out.
- **Usage details and fittings:** The adjustable dividers allow the trolleys to accommodate plates of different sizes: use 2–4 dividers for plates measuring 25.4 cm or larger, 6 dividers for plates measuring 20.3–24.8 cm, and 8 dividers for plates measuring 19.6 cm or smaller. Fitted with two 12.7 cm wheels and two 25.4 cm wheels, they ensure smooth movement. All trolleys are supplied complete with a vinyl hygiene cover.
- **Usage and specification details:** Plate capacity: 45–60 plates, min. Ø 14 cm and max. Ø 31.8 cm. Internal height per column: 47 cm.
- **Gross weight per package for minimum order quantity:** 43 kg
- **Package dimensions for minimum order quantity:** 112x72x81h cm
- **Recommended minimum order quantity:** 1 unit
- **Recommended sales multiple:** 1 unit
