Cod: 11013002020278

Direct-heating gas saucepan, 55-litre capacity

Description

Gas saucepan, stainless steel body. Knobs made from thermosetting plastic. Pressed and balanced stainless steel lid.

Direct heating provided by high-efficiency stainless steel tubular burners. Safety ensured by a thermocouple activated by the pilot burner flame. Ignition via piezoelectric ignition and pilot flame.

Cooking vessel with an AISI 316 base for handling particularly acidic products, and AISI 304 walls. Thermal insulation provided by thick fibreglass panels. Worktop joined to the cooking vessel by continuous welding.

Cooking vessel capacity: 55 litres.

Worktop made of AISI 304 stainless steel, pressed with rounded edges for easy cleaning. Front cladding in stainless steel.

Water is fed into the tank via a tap (hot/cold water) and an adjustable spout. Tank drain hole with removable filter. 5.08 cm chrome-plated brass front drain tap fitted with an insulated handle.

Laser-cut worktop finish to ensure a ‘head-to-head’ fit between worktops and secure fastening of the worktops to one another.

Testing carried out with natural gas or LPG, depending on the user’s requirements.

Height-adjustable stainless steel feet

. 100% Made in Italy.

Dimensions

External dimensions	800x700x850 mm

Technical specifications

Gas Power	15.5 kW
Net weight	72 kg
Power supply	Gas
