Cod: 114280700072232

Electric benchtop bain-marie, 1 GN 2/1 tray, 2 kW, 80×70×25h cm

Description

Electric benchtop bain-marie, stainless steel construction. Knobs made from heat-resistant material with functional screen-printed markings on the rim.

Heating is provided by ETCHED FOIL contact heating elements to ensure heat transfer is directed solely towards the base of the tank, thereby saving energy. Manually resettable safety thermostat to protect the heating element. Control panel featuring an ON/OFF switch and a thermostat adjustable between 30°C and 90°C, with the sensor bulb immersed in the cooking tank.

AISI 304 stainless steel worktop with wide-radius rounded corners for easy cleaning. Front, side and rear panels in stainless steel.

Tank made from cold-formed AISI 304 stainless steel with a drain hole, suitable for trays with a maximum height of 15 cm and capable of accommodating multiple containers up to 2/1 GN.

Tap for filling and topping up water, positioned on the control panel. Elliptical-section handles made from AISI 304. The tank drain is positioned on the control panel and operated by a lever.

Laser-cut worktop finish to ensure ‘end-to-end’ alignment of worktops and secure fastening of the worktops to one another.

. 100% Made in Italy.

Dimensions

External dimensions	800x700x250 mm

Technical specifications

Electrical Power	2 kW
Net weight	24 kg
Operating temperature	+30 +90 °C
Power supply	Electric
Voltage	230 V
