Cod: 4434

Three-phase Electric Convection Oven with Humidification, for 4 1/1 GN Trays

Description

A digital electric convection oven with a humidification function, boasting excellent technical specifications and a minimalist design, making it a compact yet highly capable appliance. You can bake mini pizzas and savoury tarts or reheat frozen food, achieving excellent results thanks to the one-touch humidification function and increased heating power. Operating the oven is extremely intuitive and made even easier by the electronic control panel, which can be customised with as many as 99 programmes, allowing you to cook in four stages.
