Cod: 6449

Professional Vertical ABS Refrigerated Cabinet, 570 litres capacity

Description

The **refrigerated cabinet** is an indispensable piece of equipment in the catering industry thanks to its ability to keep food at low temperatures. This Ristoattrezzature cabinet features a **robust build** and offers **professional-grade performance**, allowing you to work with complete peace of mind and safety.

Ideal for **kitchens, patisseries and cafés**, it can be easily fitted into your premises thanks to its compact size. **In terms of energy consumption, it is rated Class C**.

Design and operation

One word suffices to describe the appearance of this **refrigerated cabinet**: **simplicity**. It is an extremely minimalist piece of professional equipment where **functionality** is paramount. The **outer structure is made of white epoxy-coated sheet metal**, whilst the interior is made of ABS.**Acrylonitrile-butadiene-styrene** is an excellent thermoplastic material that offers great strength whilst also being extremely lightweight.

Cooling is static, thanks to an internal fan that ensures an even temperature distribution. The cold air is thus distributed evenly throughout the cabinet, from top to bottom. The **external** bottom and rear **panels**, on the other hand, are made of **galvanised sheet metal**, and the **rounded internal corners** make cleaning the unit easier. The door is fitted with **an automatic closing mechanism and magnetic seals**; these are two important features as they ensure a perfect seal and help **minimise energy wastage**.

Furthermore, thanks to its small display, you can **always keep an eye on the operating temperature**. This ranges from **+2** to **+8 °C** and is controlled by the thermostat. As for its dimensions and capacity, the **external dimensions** of our refrigerated cabinet are **77.7 x 69.5 x 189.5h cm** and the **internal** dimensions are **63 x 53 x 165h cm**. It can hold **up to 570 litres!**

When you purchase our **professional upright refrigerated cabinet, you'll also receive 3 shelves, two measuring 63 x 48 cm and one measuring 63 x 29 cm**.

Refrigerated cabinet for catering, maintenance and cleaning

Our **refrigerated cabinet** is fitted with**a monobloc refrigeration unit**. In the event of a fault, this can be easily removed for repair or replacement.

Defrosting is automatic, which helps maintain constant temperatures at all times and ensures excellent food preservation. What's more, its sleek design and rounded corners allow you to reach every nook and cranny, even the tightest spaces, for thorough cleaning.

Always ensure the highest standards of hygiene for your customers by carrying out **regular cleaning and maintenance of your catering fridge**.

Why this is the right product for you

Buy our **professional vertical refrigerated cabinet** for your premises if you're looking for a high-performance, professional-grade product.

The 6 cm insulation thickness ensures this product ranks highly in energy efficiency classes. Classified as Class C, the cabinet is fitted with a **low-consumption motor operating at 60 Hz and with a power rating of 0.185 kW**.

The handle design is engineered to be highly ergonomic, ensuring a secure and firm grip. What's more, **the unit is tropicalised**, meaning that the fridge's performance will not be compromised even in extreme environmental conditions. It can easily cope with heavy workloads and **temperatures of up to +30°C with humidity levels of up to 55 per cent.**
