Cod: 11013001021248

Indirect-heating electric boiler, 150-litre capacity

Description

Stainless steel frame. Balanced stainless steel lid. Heat-resistant thermoset plastic knobs with practical screen-printed markings.

Indirect heating provided by INCOLOY heating elements with a jacket and steam circulation. Jacket pressure controlled by a safety valve. Analogue pressure gauge and safety thermostat. Three-position switch for adjusting power. Operating thermostat for regulating the temperature inside the cooking vessel.

Cooking tank with an AISI 316 stainless steel base. Capacity: 150 litres.

Stainless steel worktop with rounded edges for easy cleaning.

The worktop finish is laser-cut for a ‘butt-joint’ fit and secured with edging.

. 100% Made in Italy.

Dimensions

External dimensions	800x900x850 mm

Technical specifications

Capacity	150 Lt
Electrical Power	18 kW
Net weight	152 kg
Power supply	Electric
Voltage	400 V
