Cod: 100790010163039

Combined gas oven with convection and steam functions, 7 GN 1/1 trays, touch-screen controls

Description

A 7-tray GN1/1 gas oven that combines functionality with technological innovations. Designed for medium-sized restaurants and delis that need to cook even sophisticated dishes in an easy and intuitive way. The oven is fitted with an innovative cooling system that ensures it can operate even in the most confined spaces, and a new standard cleaning system that takes up less space, consumes less energy and is more efficient. 500 pre-installed cooking programmes.

Dimensions
