Cod: 116370023057021

Double induction hob, 35 × 77 × 14.5 cm (h), 7 kW

Description

Why buy it?

If you're looking for a modern, high-performance solution for your kitchen, the **double induction hob** is the ideal choice. With its elegant design, robust build and innovative technology, it offers **exceptional performance** and greater safety during use. Perfect for restaurants, cafés and professional kitchens, it guarantees speed, even cooking and significant energy savings.

Key features

- **Black glass surface for a stylish and functional design**
  The smooth, durable black glass surface not only gives it a modern look, but is also easy to clean and highly resistant to wear and tear.
- **Stainless steel construction: robustness and durability**
  The stainless steel base ensures stability and strength, making the hotplate suitable for intensive use in professional environments.
- **Copper coil for even and powerful cooking**
  The copper coil heats up quickly and distributes heat evenly, ensuring impressive cooking power for precise and rapid cooking.
- **Smart protection technology**
  Equipped with protection systems against **overheating** and **overvoltage**, this hotplate guarantees superior safety for both the operator and the appliance itself.
- **Energy savings thanks to smart electronic components**
  Advanced technology optimises energy consumption, delivering **efficiency without waste** and helping to reduce running costs.
- **High-temperature resistance and non-slip materials**
  The materials used are designed to withstand high temperatures, whilst the non-slip base keeps the iron stable even during the most complex tasks.
- **Ease of use and maintenance**
  The smooth glass surface is easy to clean and retains its pristine appearance over time, reducing maintenance time.

Technical Specifications

- **External dimensions**: 35x77x14.5h cm
- **Packaging dimensions**: 82x42x19h cm
- **Power supply**: Mains
- **Frequency**: 50 Hz
- **Gross weight**: 11.5 kg
- **Net weight**: 10.5 kg
- **Electrical power**: 7 kW
- **Voltage**: 220 V

Dimensions

External dimensions	350x770x145 mm
Packaging dimensions	820x420x190 mm

Technical specifications

Electrical Power	7 kW
Frequency	50 Hz
Net weight	10.5 kg
Power supply	Electric
Voltage	220 V
Weight including packaging	11.5 kg
