

Cod: 117453135

Stainless steel wall unit, 140 x 40 x 65h cm, with 2 VS sliding doors

Description

Why buy it?

The **VS stainless steel wall cabinet with two sliding doors** is the ideal choice for anyone looking for a practical, hygienic and safe piece of furniture for their professional kitchen. Thanks to the combination of SS201 and SS304 stainless steel, it guarantees durability and strength, ensuring a superior standard of quality. With its **compact dimensions and a load capacity of up to 300 kg**, it is perfect for organising and protecting utensils and work materials, even in the smallest of spaces.

Key features

- **High-quality materials:**
Made from a **combination of SS201 and SS304 stainless steel**, this wall unit offers superior resistance to wear, moisture and corrosion, ensuring optimal longevity even in high-intensity working environments.
- **Compliance with hygiene standards:**
The stainless steel design meets the most stringent **hygiene standards**, making it perfect for professional environments such as kitchens, laboratories and other spaces requiring the highest levels of cleanliness.
- **Raised edges for greater safety:**
The top edges are **slightly raised**, a feature designed to prevent accidental spills or the falling of utensils and other objects, thereby enhancing operational safety.
- **Flush-fitting sliding doors:**
Fitted with **two flush-fitting sliding doors**, it allows for practical use even in confined spaces, minimising the footprint and ensuring a smooth, silent opening action.
- **Adjustable shelf:**
Inside, the wall unit features an **adjustable shelf**, allowing you to customise the layout to suit your specific needs and offering maximum flexibility for storage.
