Cod: 117570023123

Stainless steel sink unit, 160×60×95h cm, 2 bowls, with dishwasher compartment on the left, model VS

Description

Why buy it?

This **stainless steel sink with built-in cupboard** is the ideal solution for anyone looking for practicality and durability in the kitchen. Perfect for professional use, it offers a functional design that makes the most of the space thanks to the dedicated compartment for the dishwasher. The quality of the materials ensures long-lasting durability, whilst the carefully designed details enhance the everyday user experience.

Key features

- **High-quality materials**
  Constructed from a combination of **SS201 and 304** stainless steel, the sink ensures **durability and resistance to corrosion**. This makes it ideal for intensive use in professional settings, whilst also ensuring easy cleaning and a hygienic surface.
- **Functional design with dishwasher compartment**
  The integrated dishwasher compartment on the left-hand side optimises kitchen space, streamlining workflow and keeping the kitchen tidy. A perfect solution for those seeking **efficiency and organisation**.
- **Anti-spill rim**
  The top edge is designed to prevent accidental water spillage, keeping the kitchen dry and safe at all times. This feature reduces the need for frequent cleaning and contributes to a tidier working environment.
- **Adjustable feet for perfect stability**
  The adjustable feet allow the sink to be adapted to surfaces that are not perfectly level, ensuring **stability and comfort** during use. An essential feature for guaranteeing an optimal user experience.
- **With rear splashback**
  The integrated splashback protects the wall from splashes and makes cleaning easier, helping to maintain the hygiene and aesthetics of the professional kitchen.
