Cod: 12245039

Double infrared food warmer with light, 1.6 kW

Description

Why buy it?

When it comes to keeping food at the right temperature before serving, it's essential to have a reliable, efficient and easy-to-clean appliance. This **infrared food warmer** combines a stylish design with technology that **keeps food evenly warm**, without drying it out or compromising its quality. Its compact size makes it **versatile** for both professional settings with ample space and **narrow counters or mobile workstations**.

Key features

- **Infrared technology for even heating**
  Unlike traditional hotplates, infrared heating ensures **an even distribution of heat across the entire surface**, avoiding cold or overheated spots. The heat gently penetrates the food, keeping it warm without burning or drying it out – ideal for first courses, main courses or side dishes ready to serve.
- **Stainless steel construction: hygiene and durability**
  The hotplate is made entirely of **stainless steel**, a material resistant to wear, impact and corrosion. This ensures a long service life even in high-intensity work environments, as well as making **cleaning quick and easy** – essential for compliance with HACCP regulations.
- **Compact design for maximum versatility**
  Measuring **91.7 x 38.1 x 6.4h cm**, this hotplate fits perfectly even in kitchens with limited space, on **self-service lines**, display counters or **buffet areas**. Its low-profile design ensures a discreet and professional appearance on the worktop.
- **Lightweight and practical to use**
  Weighing just **11 kg**, it is easy to move and can be installed effortlessly by a single person. This makes it perfect for those seeking a **flexible**, ready-to-use **solution** for a variety of settings.

Technical specifications

- **External dimensions: 91** .7 x 38.1 x 6.4h cm
- **Weight: 11** kg
- **Frequency:** 50/60 Hz
- **Electrical power:** 1.69 kW
- **Voltage: 230** V

NB: Steel supports not included
