Cod: 12262048

Professional microwave oven with digital controls and LED display, 1.5 kW

Description

Why buy it?

This professional microwave is designed for those who work to tight deadlines every day and need an intuitive, fast and reliable appliance. Thanks to **its digital controls**, precise power management and the ability to store up to **100 programmes**, it allows you to optimise workflows and maintain consistent quality in your food preparation. The **stainless steel** interior ensures durability and hygiene, whilst the interior lighting allows you to monitor food without interrupting cooking cycles.

Key features

- **Digital controls for intuitive and professional operation**
  The digital controls make every function immediately accessible, with simple and precise management of times and power settings. This allows the chef or operator to work quickly, reducing errors and optimising every stage of service.
- **Clear and intuitive LED display**
  The LED display provides a clear view of the settings, timers and selected programmes. Ideal for fast-paced kitchens, where immediate readability is essential for maintaining a high pace of work.
- **Stainless steel interior and handle**
  The **stainless steel** interior and handle ensure maximum hygiene, durability and resistance to wear and tear, heat and frequent cleaning cycles. A reliable material, perfect for the professional environment.
- **100 programmable settings for an automated kitchen**
  The ability to store up to **100 programmes** allows recipes and processes to be standardised, ensuring consistent results even with different staff. A major advantage for organised kitchens, canteens, cafés and fast-food outlets.
- **5 power levels for maximum versatility**
  The 5 power levels allow you to precisely control defrosting, reheating and cooking. Each dish can be adjusted according to its delicacy or the intensity required, preventing overheating or uneven cooking.
- **Internal lighting to monitor cooking**
  The handy interior light allows you to check on the progress of your dishes without opening the door, maintaining a stable temperature and reducing preparation times.

Technical specifications

- **External dimensions:** 51x44x31h cm
- **Internal dimensions:** 32.7x34.6x20h cm
- **Packaging dimensions:** 58x47x38h cm
- **Power consumption:** 1.55 kW
- **Voltage**: 220–240 V
- **Frequency**: 50 Hz
- **Capacity**: 25 L
- **Net weight**: 15 kg
- **Gross weight**: 17 kg

Dimensions

External dimensions	510x440x310 mm
Internal dimensions	327x346x200 mm
Packaging dimensions	580x470x380 mm

Technical specifications

Electrical Power	1.5 kW
Frequency	50 Hz
Net weight	15 kg
Power supply	Electric
Voltage	220 V, 240 V
Weight including packaging	17 kg
