Cod: 994642281313

Professional horizontal static chest freezer with solid hinged door, 109 × 69 × 86 (h) cm, 278 litres

Description

Why buy it?

This **professional chest freezer with a solid hinged door** is designed for those who need a spacious, practical and secure refrigerated space, without compromising on low energy consumption and ease of use. Its robust construction, electronic temperature control and static cooling make it suitable for intensive use, typical of the catering industry, but also perfect for semi-professional applications. It is a practical choice for organising food effectively, keeping it at the right temperature at all times and working in an orderly and efficient manner.

Key features

- **Electronic thermostat for precise temperature control**
  The electronic thermostat allows you to precisely set and maintain the operating temperature, between **+2 °C and +8 °C**, ensuring the correct storage of fresh food and prepared dishes. This accurate temperature control reduces waste and ensures high standards of food safety, which are essential in a professional setting.
- **Static cooling for natural food preservation**
  Static refrigeration ensures an even distribution of cold air throughout the compartment, avoiding direct draughts that could dry out the products. It is particularly suitable for storing both packaged and unpackaged food, preserving quality, texture and freshness.
- **Interior in white pre-painted sheet metal, durable and easy to clean**
  The interior, made from **white pre-painted sheet metal**, is designed to withstand daily wear and tear and to facilitate cleaning. The smooth, hygienic surface allows for quick maintenance, helping to maintain the high standards of hygiene required in professional settings.
- **Solid hinged door for improved thermal insulation**
  The **solid hinged door** ensures excellent insulation, minimising cold air loss and improving the chest freezer's energy efficiency. The hinged opening is practical and functional, ideal for frequent use during service.
- **Key and lock for maximum security**
  Fitted with **a key-operated lock**, this professional chest freezer protects its contents from unauthorised access. This is a particularly useful feature in shared environments such as professional kitchens, laboratories or warehouses.
- **Generous capacity in a compact design**
  With a **gross capacity of 278 litres** and a **net capacity of 275 litres**, it offers ample storage space whilst maintaining a compact footprint. Its external dimensions of **109x69x86h cm** mean it fits easily even into small workspaces.
- **Low energy consumption and low noise levels**
  With a **power consumption of 0.16 kW** and **energy usage of just 0.58 kWh/24h**, this chest freezer is designed to reduce energy costs. Furthermore, its **noise level of just 44 dB** makes it suitable even for areas open to the public.

Technical specifications

- **External dimensions:** 109x69x86h cm
- **Internal dimensions:** 96.2 x 47.2 x 68h cm
- **Packaging dimensions:** 114 x 71 x 94.3h cm
- **Operating temperature:** +2 °C / +8 °C
- **Climate class:** C1
- **Gross capacity:** 278 litres
- **Net capacity:** 275 litres
- **Insulation:** 6.5 cm
- **Defrosting:** Manual
- **Noise level:** 44 dB
- **Net weight:** 44 kg
- **Gross weight:** 47 kg
- **Voltage:** 220–240 V
- **Frequency:** 50 Hz
- **Refrigerant:** R600A

- **Power consumption:** 0.16 kW
- **Electricity consumption:** 0.58 kWh / 24h

Dimensions

External dimensions	1090x690x860 mm
Insulation thickness	65 mm
Internal dimensions	962x472x680 mm
Packaging dimensions	1140x710x943 mm

Technical specifications

Capacity	278 Lt
Defrosting	manual
Electrical Power	0.165 kW
Electricity consumption	0.581 Kw/24h
Frequency	50 Hz
Net weight	44 kg
Noise levels	44 db
Operating temperature	+2 +8 °C
Power supply	Electric
Refrigerant gas	R600A
Voltage	230 V
Weight including packaging	47 kg
