Cod: 994642282142

Professional horizontal static chest freezer with solid hinged door, 132 × 69 × 86 (h) cm, 352 litres

Description

Why buy it?

This **professional chest freezer** is designed for those looking for a robust, easy-to-use appliance capable of maintaining a **stable temperature** for the proper storage of food. Its solid construction, static cooling and electronic temperature control make it suitable for both intensive professional use and for those seeking a reliable product for more limited use, without compromising on quality.

Key features

- **Electronic thermostat for precise temperature control**
  The fridge is fitted with **an electronic thermostat**, which allows you to precisely adjust and maintain the operating temperature between **+2 °C and +8 °C**. This feature is essential for ensuring the correct storage of fresh food, drinks and perishable items, reducing the risk of temperature fluctuations and preserving the quality of the food.
- **Reliable and uniform static cooling**
  Static cooling ensures a natural distribution of cold air within the compartment, ideal for those requiring constant storage without forced air flow. This solution is particularly valued in professional settings for its simplicity, reliability and lower long-term maintenance requirements.
- **Practical and hygienic white pre-painted sheet metal interior**
  The interior of the counter-top fridge is made from **white pre-painted sheet metal**, a choice that facilitates daily cleaning and improves visibility of the stored products. The material is durable and suitable for professional use, helping to maintain high standards of hygiene.
- **Solid hinged door with key and lock**
  The **solid hinged door** ensures excellent thermal insulation, reducing cold loss and improving energy efficiency. The inclusion of **a key and lock** makes this chest freezer ideal for shared spaces or those open to the public, helping to protect the contents from unauthorised access.
- **Excellent insulation and low energy consumption**
  Thanks to **6.5 cm of insulation**, the fridge maintains the internal temperature effectively, reducing the workload on the compressor. This translates into **low energy consumption**, amounting to approximately **0.55 kWh/24h**, a tangible benefit for businesses that use the fridge on a daily basis.
- **High capacity in a compact design**
  With a **gross capacity of 352 litres** and a **net capacity of 349 litres**, this chest freezer offers ample storage space whilst maintaining compact external dimensions (**132x69x86h cm**). It can therefore be easily installed in professional kitchens, food processing facilities or service areas.
- **Quiet and suitable for a variety of work environments**
  With **a noise level of just 44 dB**, this chest freezer is also suitable for environments where acoustic comfort is important, such as cafés, premises open to the public or open-plan kitchens.

Technical specifications

- **External dimensions:** 132 x 69 x 86h cm
- **Internal dimensions:** 119.2 x 47.2 x 68h cm
- **Packaging dimensions:** 137x71x94.3h cm
- **Operating temperature:** +2 °C / +8 °C
- **Climate class:** C1
- **Net capacity:** 349 litres
- **Gross capacity:** 352 litres
- **Noise level:** 44 dB
- **Insulation:** 6.5 cm
- **Defrosting:** Manual
- **Net weight:** 48 kg
- **Gross weight:** 51 kg
- **Power supply:** 220–240 V / 50 Hz
- **Refrigerant:** R600A

- **Power consumption:** 0.25 kW
- **Electricity consumption:** 0.55 kWh/24h

Dimensions

External dimensions	1320x690x860 mm
Insulation thickness	65 mm
Internal dimensions	1192x472x680 mm
Packaging dimensions	1370x710x943 mm

Technical specifications

Capacity	352 Lt
Defrosting	manual
Electrical Power	0.25 kW
Electricity consumption	0.559 Kw/24h
Frequency	50 Hz
Net weight	48 kg
Noise levels	44 db
Power supply	Electric
Refrigerant gas	R600A
Voltage	230 V
Weight including packaging	51 kg
