Cod: 103763424442

Neutral countertop display unit, 120×33×20h cm, with straight glass panels, 68 litres

Description

The neutral countertop display unit for patisseries and kitchens is an extremely practical and easy-to-clean professional tool.

Manufactured **to the highest quality standards**, the Ristoattrezzature display unit is designed to **showcase and store food** in the best possible way. Ideal for the catering industry.

Its structure is made entirely of **glass**, ensuring **your croissants and brioches are displayed to their best advantage on the counter,** whilst offering **ease of cleaning and high performance**. Showcase the transparency and quality of your products. Make room for the right professional equipment in your kitchen.

Design and functionality

This neutral countertop display unit for the catering industry is characterised **by** a **minimalist design and clean lines**. The choice of materials and the design of the exterior are tailored to the role our display unit is intended to fulfil at the counter.

Straight glass panels make it easy to use and clean, ensuring **uncompromising hygiene**. The display unit is fitted with rear sliding doors to make it easier for staff to open and close it.

It is also described as ‘neutral’ because it is neither a heated nor a refrigerated display unit and is suitable for displaying and storing various types of food.

Its **external dimensions are 120x33x20h cm**, with packaging dimensions of 124.3x36.7x24h cm, giving a **capacity of 68 litres**.

Why this is the right product for you

One of the reasons why your establishment simply cannot do without our **neutral countertop display unit** is its **ability to optimise space** by providing the ideal surface on which to both store and display your fragrant creations, whether sweet or savoury. Its design is, in fact, capable of providing **the ideal display surface** on which to both store and showcase your fragrant creations, whether sweet or savoury.

Offer your customers quality and a particularly practical layout in cafés, patisseries and catering establishments in general. You’ll ensure your counter is always tidy – and that’s not all. **By purchasing this professional equipment, you’ll enjoy**:

- **greater comfort whilst working**
- a **durable and robust product**
- **high performance**
- **versatility**. A neutral display unit for cafés and patisseries can, in fact, easily adapt to different settings. Depending on your needs, you can choose from countertop display units in various sizes.
