Cod: 983600615232

Countertop refrigerated display cabinet, 121.9 × 56.8 × 68.6 (h) cm, with straight glass panels on all four sides, white glass, 200 litres, 0 +12 °C

Description

The counter-top refrigerated display cabinet is a useful piece of equipment for both catering businesses and the direct sale of food products, for example in cafés, patisseries, sushi bars, coffee shops and supermarkets.

Features of the countertop refrigerated display cabinet

This countertop refrigerated display cabinet is constructed with four glass sides. Each pane is reinforced with double glazing, a feature that ensures better maintenance of the internal temperature and, consequently, greater energy savings.

The front glass panel is flat, with access to the interior of the display cabinet via two convenient sliding doors.

The refrigeration system is ventilated, with an evaporator located outside the chamber. This ensures that the temperature, which is adjustable between 0°C and +12°C, is distributed evenly throughout the entire interior.

Other key features of the refrigerated display cabinet include:

- LED interior lighting;
- 2 adjustable internal shelves, lined with PVC;
- adjustable feet;
- maintenance-free condenser;
- automatic defrosting;
- automatic condensate drainage.

Dimensions of the professional refrigerated display cabinet

The dimensions of this professional refrigerated display cabinet are 121.9 x 56.8 x 68.6h cm. It has a capacity of 200 litres. The two shelves are included as standard. The body is white.

Energy information

The electrically powered display cabinet operates at a voltage of 230V. Its energy efficiency class is B. The refrigerant used is R290.
