Cod: 122310022931

Upgraded 2-burner gas hob with pilot light and piezoelectric ignition, for installation in a built-in unit, 12 kW S/70, 40×70 cm

Description

Why Buy It?

This **2-burner gas hob with an enclosed compartment** is designed for those seeking a professional and reliable solution for their catering business. Here's why you should consider it:

- **Maximum cooking versatility**: Thanks to its 6 independent burners, you can cook several dishes at the same time, optimising time and improving operational efficiency.
- **Robust build and impeccable hygiene**: Made entirely from **stainless steel**, this hob is corrosion-resistant, easy to clean and ensures maximum hygiene in the kitchen.
- **Safety and total control**: Each burner is fitted with its own switch and dedicated nozzle, offering precise control over the flames and greater safety during use.
- **Ideal for professional environments**: With a power output of **12 kW**, this cooker delivers high performance, perfect for coping with the intense pace of professional kitchens.

Key Features

- **Gas-fired**: Perfect for ensuring even and rapid cooking, reducing preparation times.
- **2 independent burners**: Thanks to the 2 **high-output** burners **,** you can manage multiple cooking tasks simultaneously, saving time and boosting your kitchen's productivity.
- The **pilot flame** ensures rapid and continuous ignition of the burners, reduces waiting times and enhances safety by cutting off the gas supply should the flame go out.
- The **piezoelectric** ignition is practical and safe: it requires no batteries or mains power, operates with a simple mechanical press, is reliable even in harsh environments and ensures a long service life with minimal maintenance.
- **Compact and functional design**: Its dimensions of **40x70 cm** make it ideal for professional kitchens with limited space, without compromising on a large work surface.
- **Stainless steel construction**: Resistant to impacts, heat and everyday wear and tear, it ensures long-lasting durability and ease of maintenance.
- **Enclosed storage compartment**: A spacious area underneath for storing utensils, baking trays or other accessories, helping to keep the kitchen organised.

Technical Specifications

- **External dimensions**: 40x70x94h cm
- **Fuel**: Gas
- **Weight**: 42 kg
- **Gas power**: 12 kW

N.B.: Fitted with a safety thermocouple.

Note on knob colours:
Our equipment is available with red or silver knobs. The colour cannot be selected by the customer and will be dispatched at random. However, if multiple products from the same range are ordered, we undertake to supply all items with knobs of the same colour.
