Cod: 12584014527004

Ventilated built-in cupboard, +0 to +10 °C, 2057 litres, 4 glass doors

Description

Why buy it?

This built-in refrigerated cabinet is designed for those **who** want **to showcase their products** without compromising on professional performance. Perfect for bars, delis, supermarkets or food businesses, it combines a modern matt black design with **efficient ventilated cooling**, ensuring visibility, practicality and consistent food preservation. It is a strategic choice both for those wishing to enhance the customer's shopping experience and for those seeking day-to-day operational reliability.

Key features

- **Internal and external structure in matt black sheet metal**
  The matt black finish gives a modern and elegant look, ideal for well-maintained professional environments. Furthermore, the structure is designed to ensure **wear resistance and a long service life**, even in high-intensity use scenarios.
- **Pre-painted interior with anti-corrosion treatment**
  The interior is made from materials treated to withstand moisture and corrosive agents over time, ensuring **maximum hygiene and ease of cleaning** – essential in the food sector.
- **Frameless glass door for maximum visibility**
  The frameless full-glass design enhances the visual appeal and allows a **complete view of the products**, encouraging impulse buying and enhancing the display.
- **Ventilated cooling for uniform temperature**
  The ventilated system distributes the cold air evenly throughout the cabinet, ensuring **optimal storage between +0 and +10 °C** for all products, without temperature fluctuations.
- **Intuitive and precise digital thermostat**
  The electronic control allows you to easily adjust the temperature, maintaining **ideal storage conditions** at all times with the utmost precision.
- **Automatic defrosting with compressor shut-off**
  The automatic system reduces ice build-up and minimises maintenance, improving efficiency and ensuring **continuous operation without the need for frequent manual intervention**.
- **Internal lighting with 2 vertical LEDs**
  The LED lights showcase the displayed products, improving visibility even in dimly lit environments and helping to create an **eye-catching visual effect for the end customer**.
- **Automatic door closure**
  The door closes automatically, preventing cold air from escaping, improving energy efficiency and reducing waste.
- **Shelves with integrated price holders**
  The shelves allow for neat organisation of products and make it easy to display prices, making shop management **more practical and professional**.
- **Castors and adjustable feet for maximum convenience**
  The castors make it easy to move the unit during cleaning or reorganisation, whilst the feet ensure stability once it is in position.

Technical specifications

- **External dimensions:** 250x72.7x196.7h cm
- **Internal dimensions:** 240.3 x 50.6 x 154.1h cm
- **Packaging dimensions:** 256 x 76.5 x 210h cm
- **Net capacity:** 1,433 litres
- **Gross capacity:** 2,057 litres
- **Climate class:** 5
- **Refrigerant:** R290 (environmentally friendly)
- **Power consumption:** 0.85 kW
- **Energy consumption:** 9.7 kWh/24h
- **Noise level:** 65 dB
- **Voltage:** 220–240 V – 50 Hz

- **Net weight:** 279 kg

Dimensions

External dimensions	2500x727x1967 mm
Insulation thickness	48.5 mm
Internal dimensions	2403x506x1541 mm
Packaging dimensions	2560x765x2100 mm

Technical specifications

Capacity	2057 Lt
Climate class	5
Defrosting	automatic
Electrical Power	0.85 kW
Electricity consumption	9.7 Kw/24h
Frequency	50 Hz
Net weight	279 kg
Noise levels	65 db
Operating temperature	0 +10 °C
Power supply	Electric
Refrigerant gas	R290
Voltage	230 V
Weight including packaging	319 kg

Standard equipment

Included	16 side shelves with price holders measuring 563 x 488 mm and 4 central shelves with price holders measuring 612 x 488 mm
