Cod: 13277

Portable food warmer for table service

Description

Why buy it

The portable food warmer for table service helps you organise the preparation or keeping warm of food as required by the product. A useful choice for setting up the necessary equipment for your business and coordinating operations with the type of service required.

Key features

- **Coordinated service:** It allows you to dedicate a piece of equipment to the specified preparation or keeping-warm tasks, helping to manage demands from the counter and the buffet.
- **Service equipment:** The model's configuration and capacity allow you to choose the solution based on portion sizes and the space available.
