Cod: 14071

21-litre liquid heating pan

Description

Why buy it

The liquid-heating pot helps you organise the preparation or keeping warm of liquids as required by the product. A useful choice for putting together the equipment needed for your business and coordinating operations with the type of service required.

Key features

- **Coordinated service:** It allows you to dedicate a piece of equipment to the specified preparation or keeping warm tasks, helping to manage requests from the counter and the buffet.
- **21-litre capacity:** The capacity specified for this model helps you plan quantities and restocking, choosing equipment proportionate to the kitchen's workload or the service required.
