Cod: 40350029

Stainless steel cupboard with sliding doors, depth 50 cm, 100×50×180h cm

Description

The professional stainless steel cabinet that Ristoattrezzature has selected for you is a useful and practical piece of furniture, featuring two sliding doors on one side and three internal shelves for storing **professional equipment or kitchen utensils**. It is ideal for use in **patisseries, bakeries**, pizzerias, restaurants, butchers' shops, hotels and any other premises where specific hygiene procedures required by law must be adhered to; for this reason, the structure of this product is made from **430 stainless steel**. The excellent performance of the 100 x 50 x 180h cm cabinet is ensured by the use of a stainless steel alloy which, thanks to its properties, makes it truly robust, durable and capable of withstanding substantial loads.

Thanks to its compact dimensions, this unit can make the space within your **professional workshop** or kitchen even more functional. Furthermore,**the cabinet with sliding doors** is fitted with four tubular feet and rounded internal corners, designed to facilitate daily cleaning procedures.

. 100% Made in Italy.
