Cod: 39240301

Stainless steel single-bowl sink with worktop and splashback, depth 70 cm, 80×70×85h cm

Description

Why buy it?

A good **stainless steel sink** is not just a piece of kit, but a real asset to your professional kitchen. This model, featuring **a single bowl**, **integrated shelf** and **rear splashback**, offers the perfect balance between functionality, durability and everyday practicality. The simple yet robust design allows for intensive use in any catering environment, ensuring **ease of cleaning** and **maximum hygiene**. It is ideal for washing bulky crockery, pans, kitchen utensils or for food preparation, helping you to maintain an efficient and tidy workspace at all times.

Key features

- **Fully stainless steel construction**
  Made from **high-quality stainless steel**, this sink offers **excellent resistance to corrosion**, moisture and the chemicals used for cleaning. The material also ensures excellent durability and a surface **that remains hygienic and easy to sanitise at all** times.
- **1 large bowl for professional use**
  The bowl, with internal dimensions of **60x50x30h cm**, is perfect for intensive washing. Its depth allows you to comfortably handle even large pots and utensils, offering greater working capacity than standard sinks.
- **Practical and sturdy lower shelf**
  The practical **lower shelf** allows you to keep cleaning products, utensils or frequently used items within easy reach. This helps to optimise kitchen space and keeps the work area tidy and functional at all times.
- **10 cm rear splashback**
  The 10 cm rear splashback protects the wall from water splashes, helping to keep the surrounding area clean. It also makes it easier to carry out daily cleaning of the workstation.
- **Adjustable feet for perfect levelling**
  The adjustable feet allow the sink to be levelled even on surfaces that are not perfectly flat, ensuring **stability** during all washing tasks and improving the ergonomics of the workstation.
