Cod: 3270791

Stainless steel table on legs with a base panel, 70 cm deep, 90×70 cm

Description

Why buy it?

If you run a professional kitchen, you know how important it is to have work surfaces that are durable, easy to clean and practical. This **stainless steel table with a lower shelf** is designed to offer you all of this in a single, compact and sturdy solution. Its depth of 70 cm makes it perfect even for smaller spaces, without compromising on the practicality of a spacious worktop. It's a solid choice for anyone looking for efficiency and long-lasting quality.

Key features

- **Fully stainless steel construction**
  Made entirely from **high-quality stainless steel**, this table guarantees **resistance to corrosion**, **ease of cleaning** and **maximum hygiene**. Perfect for HACCP environments, food processing facilities, restaurants and commercial kitchens.
- **Equipped with 1 spacious lower shelf**
  The **lower shelf** provides extra space for storing utensils, containers or small appliances, **optimising the** available **space** and keeping the worktop tidy.
- **Generous work surface**
  Measuring **90 x 70 cm**, the top worktop offers ample space for food preparation or for placing equipment. The **70 cm** depth is perfect for fitting into both standard spaces and more compact layouts.
- **Ideal height for everyday work**
  Thanks to its height of **85 cm**, the table ensures **ergonomic comfort** during use, minimising user fatigue even after many hours of work.
- **Good load-bearing capacity**
  It supports a load of up to **24 kg**, making it ideal for everyday kitchen tasks without the risk of warping or sagging.

Technical specifications
